I have always found my experience at the Complete EyeCare Center to be efficient, helpful, and professional. It is clear that Dr. Olson is really concerned with patient welfare and is committed to helping people maintain the best possible vision and general eye health. I would give him the highest recommendation.

 *What does that do?..* — **Craig W.** (Patient since 2010)
It is always a pleasure when it is time for our check ups. The staff always have a smile and greet each of us as if we were family. When they take you to do the tests they always make sure you are comfortable and explain what will happen on each phase. They even tell you why that check is important. Questions never bother them as they are very happy to help you understand. It doesn't stop there, Dr. Olsen even though he is busy will always greet you and ask how you have been doing since the last check. He even asks about the family. Then the education begins (I am an engineer so I ask about each test if it is a new machine) so as he is doing the procedures he fills me in on what is supposed to happen and if it doesn't he tells me why. Very busy Dr. but still takes a moment for those that are curious. Never had a better eye exam anywhere and we have lived in many places around the world.

I took my eight year old daughter here for her first real eye exam and could not have been happier! The office is very nice but the staff is extraordinary! They took the time to explain to her what they were going to do and why, in a professional and fun way. She was very calm thru the entire experience. Doctor Olson even found indications of allergy issues before she has even had symptoms. I look forward to having my eyes examined there in the future.

★★★★★★ *The Friendliness of Dr* — **Doris O.** (Patient since 2004)

The Friendliness of Dr. Olson's office staff and DR Olson himself was exactly what I would expect to receive from people in Iowa what a great group of folks. I would highly recommend my friends if asked where to find an eye DR. for service I would have them come there. Thanks everyone for making our family feel like we are part of yours. Doris E. Onorato

★★★★★★ *If the admission questions could be revised it would be a plus* — **Doris E.** (Patient since 2015)

If the admission questions could be revised it would be a plus. Come on, who cares about constipation for an eye exam? Medicare is too snoopy if they want all that but I suppose that is the purpose?

It's pretty incredible but many systemic conditions can be detected in the eye, including the serious gastrointestinal disorder Gardner's Syndrome which can be accompanied by "bear track" pigmentation in the retina. That's why health insurers require a complete Review of Systems as part of a comprehensive eye exam. This includes 14 systems: Constitutional; Eyes; Ear, Nose, Mouth, Throat; Cardiovascular; Respiratory; Gastrointestinal; Genitourinary; Musculoskeletal; Integumentary; Neurological; Psychiatric; Endocrine; Hematologic Lymphatic; Allergic Immunologic. A quality eye exam should include a review of your overall wellness. Thanks for the 5-star review Doris, and for your question!

★★★★★★ *It was an excellent appointment!!* — **Sharon C.** (Patient since 2006)

My appointments with Dr. Olson and his staff are always excellent visits and I am grateful for the kindness and consideration shown to me at those times. I always recommend you to anyone who asks if I know of an excellent eye Dr. Always!!

★★★★★★ *selection of frames* — **Susan M.** (Patient since 2006)

As always, the selection of frames never satisfies me. Even though you have several to choose from, they seem very plain and common to me. Once again, I will go to Iowa City for something more contemporary. I'm looking for "WOW! Those are COOL!" frames.

Aug 18, 2015

★★★★★★ *Always a great experience!* — **Cherie L.** (Patient since 2005)

I always have a great experience at Complete EyeCare Center. The staff are friendly, helpful, and I feel like I am getting the best price for glasses and contacts! Dr. Olson is very thorough and explains everything about my eyes and eyesight.

We're so sorry to read this. We are overwhelmingly told just the opposite (see the last online review someone left)! Now that we have the electronic tools we routinely survey patients, and in the last six years an impressive 27% have responded. The question, "Were you greeted properly when you arrived?" is asked to make sure people feel welcome and appreciated when they come--that the atmosphere is friendly from the start. 99+% of our patients have said "yes"! You are one of just 3 respondents in six years that has answered "not really", and 1 person indicated "I don't recall". I hope that at your next visit you will realize how much our team tries to make your experience as pleasant as Erin C's, who said in her online review, "The entire staff is extremely friendly. I can easily say the nicest and most pleasant office staff I have ever encountered!"

★★★★★★ *Thorough Exam Detects Potential Problem* — **Donald B.** (Patient since 2008)

Doctor Olson and his staff performed a very extensive eye exam which revealed that I am at risk of developing glaucoma. He took the time to thoroughly explain my options for addressing this potential problem. I'm thankful that Dr. Olson had both the knowledge and the equipment to detect these risk factors early enough to give me a good chance of not developing glaucoma.

Dilated eyes make it hard to pick frames placed in front of blazing bright sunny window. I picked frames that morning but they weren't written down or noted and then lost in shuffle of the day making morning trip a waste of time.

Kirk, Thanks for your 5-star rating! The staff member that helped you before our regular office hours realizes she should have written down the 3 frames you liked in addition to setting them aside. Please accept our sincere apology for the lapse in communication. We respect your time & know it's valuable, so I'm very glad this was resolved the same day. We're also looking into solutions to help with the late afternoon sunshine in our Eyewear Gallery. We want your experience in our office to be even BETTER than 5-star next time!

★★★☆☆ *My family has been loyal customers for the last 15 years and we have seen a noticeable drop in...* — **Kevin V.** (Patient since 2005)

My family has been loyal customers for the last 15 years and we have seen a noticeable drop in quality of service in the last year. Equipment was not aligned properly and the post exam support was terrible. They are supposed to call me back to answer questions. Had a similar problem when my Son ordered new glasses a couple months ago.

May 11, 2015

[Reply](#)

Mr. V, we're extremely thankful that your family has placed their trust in our eye care team over the years. Dr. Olson and all the staff value each relationship so your comments cut deep. Those who worked with you Saturday would have had just 2 hours and 17 minutes to get clarification from both a lab and vision plan during their business hours and return your call before you posted this review on a busy Monday morning. I understand you have spoken with a member of our team now. Dr. Olson has offered to speak with you personally if you have further concerns about the care you received, so please let us know if you would like him to call you. And we encourage anyone who is disappointed with their vision plan coverage to make that known to the plan directly as well as their employer's human resources department when applicable. Insurance and vision plans seem to have gotten more confusing, more complex, and often more restrictive since the implementation of the Affordable Care Act, despite what we all may have expected. No one likes being the bearer of disappointing news but our staff is often caught in the middle. We're sorry to have let you down. After all these years we hope you know that it is always our genuine intent to do our very best to help you negotiate the changes that time brings and to be a helpful advocate when it comes to your eye health and sight. That doesn't change.

★★★★★ *Great customer service and knowledgeable staff!* — **Cherie L.** (Patient since 2005)

It was great, I would not change anything. Dr. Olson did a very complete examination as always. The assistant was friendly and helpful in the pre-examination section. Always enjoy my visits and feel I get great service. I absolutely love my daily wear contacts as I don't have to travel with loads of contact solution. They cost more but are worth every cent!

We're anxious for you visit again after we've moved into our new and expanded Eyewear Gallery. You'll be especially glad to know that we've already made plans to increase our selection of sunglasses! Thanks for being patient with us while we work out of a temporary frame room during the construction and improvements. And thanks for helping us get even better at meeting our patient's needs by offering suggestions. We hear you!

★★★★★ *Girls do a good job fitting and selling glasses* — **Debra L.** (Patient since 2007)

Girls do a good job fitting and selling glasses. :) Convinced me into buying a pair of Maui Jims - which I may add are as good as they said they would be. I love them! Kind of pricey -- but good to wear with contacts. No glare is great!! Rating is four stars because we all can strive to do better at what we do.

iZon High Resolution Lenses are custom-made based on a person's unique iPrint--an optical map of the unique microscopic irregularities of the eye. And because these lenses take into consideration both traditional measurements and the unique aberrations of an individual's eyes, vision will be truly optimized. They typically take longer to produce because they are not stock lenses, but this provides sharper, clearer, more vivid vision that iZon wearers have described as "high-definition vision."
